

IW SERIES WALL SYSTEM

Concealed Fastener Panel

IW-30A, IW-31A

TECHNICAL DATA SHEET

IW-31A

DESCRIPTION

The surface profile of IW-30A series panel alternates a 10" [254] wide flat plane with a 2" [51] wide recessed rib, creating an overall wall pattern of wide-set, narrow flutes on a flush appearing surface. The IW-31A has additional highlights created by its subtle stretch ribs. All IW panels share a common lock-joint design which makes them interchangeable on a project. The lock also permits the placement of concealed fasteners, and minimizes moisture intrusion. All IW Series wall panels can be installed in a variety of rainscreen applications to form a complete wall system. Systems may vary from an uninsulated screen wall to MetalWrap™ Series, an insulated composite backup panel system with Advanced Thermal and Moisture Protection (ATMP®).

1. Alternate base material, panel lengths and gages may also be available. Contact CENTRIA.
2. Embossing is non-directional.
3. Shop swaged ends are not available for 18 gage steel, 0.050 aluminum.
4. MicroLine Extrusions can be used with horizontally installed panels only.
5. 18 gage cannot be embossed.
6. Swaged for vertical application only
7. 0.050" Embossed (optional gauge) is best effort ONLY

DESIGN FEATURES & BENEFITS

- Concealed fastener design minimizes exposed fasteners
- Common lock-joint design makes all IW series panels interchangeable on a project & minimizes moisture intrusion
- Can be installed vertically or horizontally
- Excellent for new construction and retrofit projects
- Cost-effective, all-weather installation capability shortens installation time; permits fast-track scheduling
- Panels are available with embossed or smooth finishes

NOTES

- A. For information on special applications, contact your local CENTRIA Sales Representative.
- B. All IW panels may be used on walls & soffits but not on roofs.
- C. Panel length tolerance is $\pm 1/4"$ [6mm].
- D. For protective coatings - see CENTRIA color chart.
- E. Oil canning within mill tolerances will not be cause for rejection.
- F. Panels must be ordered as "horizontal" when used in a horizontal application.
- G. Horizontal Panels must be erected from top to bottom.
